

## *Argument*

The Library and Information Science Department of the Faculty of Letters at the University of Bucharest publishes beginning with 1995 the yearly journal *Bibliology and Information Science Researches*. The journal, which has now reached no. 10, has published along the years researches on various aspects concerning the bibliology, the library science and the information science.

The contributions - with few exceptions - came from the members of the Department.

Romania's admission to EU, the more and more visible integration of our national structures in the information society and the communication need with foreign libraries and library science schools - all these made us take the decision of changing the journal title in *Library and Information Science Researches*, of renewing the editorial board and of publishing the journal in bilingual edition: Romanian and English.

We hope that in its new form, the journal of our Department will get more and more readers in Romania and abroad.

Prof. dr. Mircea Regneală
